## We Wrote These...

### Eight 8K Questions to the 8K Association President

This list of eight frequently asked questions on 8K first appeared on a news site [here](#). However, if you want to learn the whys, the whos, the whats, and the whens of the whole 8K ecosystem, we have republished our president's Q&A on the association's own website [here](#).

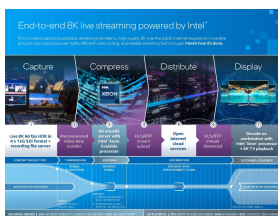

### 8K Association on SDVoE Live! Series

8K is also starting to get attention in the ProAV space although the distribution of an 8K signal there is still a concern. The Software-Defined Video over Ethernet (SDVoE) Alliance is an organization with a chipset solution aimed at enabling 10Gbps Ethernet networks in the ProAV space. We've written a report [here](#) on the live show that was put together back in January, that you can watch [here](#).

## Our Comments on These...

### Scott Wilkinson Saw the Olympics Streamed in 8K

This podcast features Scott Wilkinson who was able to attend the 8K/60p streaming demo at the Skirball Cultural Center in LA on August 3rd.

His report starts at 26:36. You can see this [Tech Guy Episode 1817 here](#).

If you missed it, last week, Chris Chinnock wrote an article [here](#).
